

About Us

Gary and Wendy Collins traveled full-time in evangelism for over 30 years. Their program was called Total Church Evangelism. They held evangelistic meetings using Gospel illusions, Swiss cowbells, ventriloquism, readings and dramatic sermons.

Their daughter grew up on the road and added to the program from the time she was 5 years old when she began playing "Jesus Loves Me" on the bells. She also assisted her mom and dad with the illusions and played a folk harp.

When they conducted meetings in churches with Christian schools, Wendy would give speech seminars and help individual students with speech. This prompted her to write Speech text books.

While they were on the road many pastors would mention the need for good fundamental VBS materials. This prompted them to begin publishing VBS programs.

The Lord changed the focus of their ministry from one of traveling to that of producing materials for church and school. They feel that the Lord allowed them to learn much while on the road and they feel that they should pass it on to others.
